Leading with Renewed Activism: Crossing Borders and Bridging Communities

If higher education is to live its values of diversity, equity and inclusion, institutional change must be purposeful, intentional and include the implementation of innovative and high-impact practices that exemplify inclusive excellence. NADOHE’s 14th annual conference will serve as a reminder that social change is achieved through collective action that engages not only our local campus communities, but broader global communities as well. It is not enough to preserve gains that have led to more equitable practices in our systems and structures. We must lead with renewed activism that challenges the current divisive rhetoric and policies that reinforce inequities within our institutions and society. “Once social change begins, it cannot be reversed.” César Chávez.

NADOHE seeks proposals (up to 32) for concurrent sessions (on March 12 and 13). Sessions can be based on theory and/or research, but presentations are strongly encouraged to have an applied/practitioner or activist perspective. Proposals may be submitted for any of the following formats:

1. Deep Dive (90 minutes)
   – A highly-interactive presentation given by 1 or 2 content leaders, developing skills through collaborative learning.

2. Case Study (75 minutes)
   – A formal presentation usually given by 1 or 2 content leaders, highlighting one or more case studies.

3. Learning Lab – Panel (75 minutes)
   – A discussion with 1 moderator and up to 3 panelists presenting perspectives around a specific topic.

4. Express Talks (20 minutes)
   – A TED-style talk given by 1 content leader that explores a single idea with practical tips through story telling.

Time allotted includes Q&A. Please indicate whether your session proposal is most appropriate for seasoned or new Chief Diversity Officers and/or diversity professionals.
